Usage instructions:

Cleaning swabs can be used directly to remove dust, dirt, and other contaminants from delicate surfaces and hard-to-reach areas. Gently wipe the selected area with the swab tip to achieve a streak-free and scratch-free finish. For better results, they can be used with cleaning agents such as plastic cleaners, LCD/TFT cleaners, or isopropyl alcohol. Simply apply a small amount of fluid to the swab tip before cleaning, which will allow for even more effective removal of grease, dust, and other stubborn dirt while ensuring full protection of the cleaned surfaces.
